## SATs Revision Books

Dear Parents

Your child has begun their preparation for the KS2 SATs exams that they will sit in May 2023. These assessments will take place in English Grammar and Spelling, Reading, Maths Arithmetic and Maths Reasoning. To help your child prepare for the SATs we are selling a pack of "Rising Stars - Achieve 100" revision guides which will include; a revision guide, practice question book and practice tests for reading, maths and SPAG.

Achieve 100 are the most reliable revision resources available to help Year 6 children and parents get ready for the 2023 national tests. These books and resources are written and trialled by expert teams of test developers and curriculum advisers. They were written to support the new Department for Education test frameworks for the new national tests.

In addition, your child will be provided with a further three books to help them revise for the tests, created by CGP, these will stay in school. We have been able to subsidise the costs of these books therefore the total for all of the books is £20.00, which is a reduction of over £20 on the original price. We highly recommend that you purchase these to help support your child's learning in school and at home.

The books will be handed out once payment has been received. A ParentPay item is now available for you to purchase the books. Please contact the Office if you need any further help or support.

Yours sincerely

Mrs Mulholland

Assistant Head Phase 4
