

Activities 6

Can you make a memory game? We used items from around the house, covered them and I took one away. The boys had to work out which item was missing. After a few turns, they decided to make their own to play together.

Supports language and communication and problem solving.

Can you count? We counted shells which we had at home. You can count anything - people, shoes, cushions, claps, the steps you take, the number of cars you can see etc

Supports maths.

How many passengers can you fit in the 'boat' before the 'boat' sinks? We used toys and food tubs. We counted, talked about size, talked about heavy and light and floating and sinking.

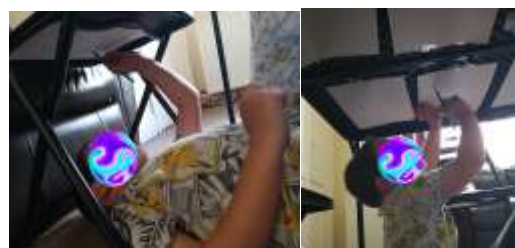

Supports counting and understanding the world.

Can you pick your favourite book, hold it the right way, turn the pages carefully and re-tell it in your own words? The Very Hungry Caterpillar also let us do some counting of what fruit the caterpillar ate.

Supports reading.

Can you make marks in different ways? We tried upside down writing by sticking paper under our table and chairs.

Supports writing and art and design.
