

# Activities 10

Can you make your own 'phone'? We used two long tubes and attached them together but you could also use paper or plastic cups and some string or wool.

Supports speaking and listening

Can you create some art? We used toy hammers to smash clean/empty eggshells that had paint under them. It made splatter patterns on our paper.

Supports art and design

Can you try an experiment? We tried this experiment below. Our balloon inflated a little bit. Ask an adult for help if you are using warm water.

Supports understanding the world

What can you see on your walk or out of your window? Some things we spotted were - colours, shapes, vehicles and animals

Supports speaking and listening

Can you use your imagination? These boxes were - airplanes, trains, cars, houses and beds.

Supports being imaginative.
