

Activities 8

Can you explore shadows? On a sunny day we drew the shadows our toys made and we looked at how shadows moved over the day and their length. We also explored shadows using torches.

Supports understanding the world.

Can you use things around your house to make something? We worked together to make a box castle.

Supports problem solving and imagination.

Can you make a game using things from around your house? We used a tray with water and blocks. We built a course to blow plastic balls through using straws.

Supports imagination.

Can you play a game? We are playing a board game here but we also like to play dominoes, cards and I-Spy using colours (I-Spy with my little eye something that is blue...)

Supports turn taking.

Can you do some exercise? Here we are getting ready to do cosmic kids yoga.

Supports health and physical development.
