

## Maths Home Learning Activities

### Reception

#### Adding 1

Write numbers from 0-10 on the floor in your garden (or on paper). Roll a dice and add 1 to whatever number you roll. You can then spray or pour water on the answer.

**Challenge:** can you add 2 more to the number you roll

#### Number Recognition

Write some numbers from 0-20 on a sheet of paper. Hang the numbers on a washing line and ask an adult to call out a number. You will then use a ball to hit the number.

**Challenge:** Hit the number that is one more than the number called out.

#### Subtraction

Ask an adult to draw a number line for you. Get your favourite toy car (or any other toy). Ask your adult to give you a subtraction calculation. Start your toy on the correct number on the number line and reverse however many the calculation asks you to subtract.

#### Ordering size of shoes

Collect a couple of shoes in your house that belong to you and other members of your family. Can you put the shoes in order of their size. Start with the smallest.

Who has got the smallest shoe size in your house?

Who has got the biggest shoe size in your house?

#### Making Patterns

Can you make a repeated pattern using your hands and feet or any other body part that can make a sound.

For example: Clap, Stomp, click fingers

#### Pour to the line

Ask an adult to mark/tape a line around 3 bottles/cups/jugs. Can you pour water up to the line marked?
